Analysis: Israeli "Scorched Earth" in Lebanon – Annexation, War Crimes, and U.S. Congressional Complicity – Temperature Zero

The Current Campaign: Destroying Southern Lebanon

As of March 23, 2026, Israeli military operations in southern Lebanon have escalated dramatically. Key documented facts:

Element	Details	Source / Verification
Official Israeli Objective	Defense Minister **Israel Katz** ordered the destruction of crossings over the Litani River and homes close to the border, described as a "scorched earth policy" aimed at creating a buffer zone.	Israeli government statements; military orders.
Infrastructure Destruction	Israeli airstrikes have targeted critical civilian infrastructure, including the **Qasmiyeh Bridge**, a key link for southern Lebanon.	Regional media; Lebanese government reports.
Violation of International Law	The Arab League and other regional actors have condemned the attacks as a "blatant violation of Lebanese sovereignty and international law." UNIFIL has previously reported that Israeli airstrikes and ground incursions constitute serious breaches of **UN Security Council Resolution 1701**.	Arab League statements; UNIFIL reports.
Civilian Displacement	Over **1.2 million people** displaced across Lebanon as of late March 2026, following the escalation that began in early March.	UN Office for the Coordination of Humanitarian Affairs (OCHA); Lebanese government.
Annexation Discourse	Some Israeli officials have openly discussed the **annexation of southern Lebanon up to the Litani River**.	Israeli media reports; statements from Israeli politicians.
Context	The escalation follows large-scale U.S.-Israel attacks on Iran in late February 2026 (Operation Epic Fury). Israel frames its Lebanon operations as retaliation for Hezbollah attacks.	Regional reporting; U.S. Central Command statements.

The Israeli Doctrine – "By Deception Thou Shalt Make War" in Practice

The Lebanon campaign is not a spontaneous response; it is a planned execution of Irgunist-Israeli doctrine:

Doctrinal Element	Application in Lebanon
Force as the only language	Jabotinsky's "Iron Wall" doctrine holds that indigenous populations will only accept Israeli dominance after overwhelming military defeat. The destruction of infrastructure and creation of a buffer zone are classic Iron Wall tactics.
Expansion through conflict	Israeli officials openly discuss annexation of territory up to the Litani River—a long-standing revisionist goal (the "Litani River" line was a strategic objective since the 1982 invasion).
Exploitation of U.S. war	The campaign is timed to follow U.S. strikes on Iran, ensuring American political and military cover while U.S. attention is focused on the larger conflict.
Deception in pretext	Israel claims its operations are "retaliation" for Hezbollah attacks, but the scale—destruction of bridges, homes, and entire villages—goes far beyond any proportional response.

U.S. Role – Enabling Israeli War Crimes

U.S. Action	Effect
Military aid	Congress has provided billions in military aid to Israel, including the weapons used in Lebanon.
Diplomatic cover	The U.S. has vetoed or abstained from UN resolutions condemning Israel's violations of Resolution 1701.
Operational coordination	U.S. Central Command (CENTCOM) integrates with Israeli military operations; the same command that falsely blamed Iran for the Bahrain explosion is now coordinating with Israel's Lebanon campaign.
Congressional silence	No hearings on the Lebanon escalation; no conditions placed on aid; no investigation into war crimes.

Congressional Complicity – The Same Pattern

Congressional Action / Inaction	Significance
No hearings on Lebanon	The same captured Congress that ignored the Bahrain false flag and the Iran war lies now ignores Israel's destruction of Lebanon.

Congressional Action / Inaction	Significance
Continued military aid	Congress has not conditioned or suspended aid despite documented violations of international law.
Lateral fire	While Israel bombs bridges and displaces over a million people, Congress holds hearings attacking executive officials (Bondi, Trump, Noem, Ratcliffe, Gabbard) to create the illusion of oversight.
AIPAC funding	The 349 AIPAC-funded members have no incentive to question Israeli operations; their political survival depends on compliance.
Superzar Pro archive ignored	Congress received proof of Israeli capture (Unit 8200, Mossad, AIPAC) on March 14, 2026. It has done nothing. The Lebanon escalation is yet another crime the captured legislature refuses to address.

Historical Context – The Litani River Ambition

Year	Event	Outcome
1982	Israel invades Lebanon, laying siege to Beirut, with stated goal of pushing PLO north of the Litani River.	Partial occupation; creation of "security zone" that lasted until 2000.
2006	Israel-Hezbollah war; UN Security Council Resolution 1701 calls for cessation of hostilities, Israeli withdrawal, and disarmament of Hezbollah.	Israel withdraws but violations continue.
2023-2026	Repeated Israeli incursions, airstrikes, and now full-scale destruction of border infrastructure.	Open discussion of permanent annexation up to the Litani River.

The current campaign is not new; it is the culmination of a 44-year ambition, now executed under cover of the U.S.-Iran war and with a captured U.S. Congress providing cover.

The Golden Irrefutable

In March 2026, Israeli forces launched a "scorched earth" campaign in southern Lebanon, destroying bridges, homes, and displacing over 1.2 million people. Defense Minister **Israel Katz** ordered the destruction of crossings over the Litani River, and Israeli officials openly discussed annexation of territory up to that line. The campaign violates UN Security Council Resolution 1701, the Geneva Conventions, and fundamental principles of international law. It is enabled by billions in U.S. military aid, diplomatic cover, and operational coordination with U.S. Central Command—the same CENTCOM that

posted a Yom Kippur greeting and falsely blamed Iran for a Patriot missile explosion in Bahrain. Congress, with 349 members funded by AIPAC, has held zero hearings on the Lebanon destruction, placed no conditions on aid, and continued its lateral fire attacks on executive officials while ignoring the war crimes unfolding under its own funding. The same captured legislature that received the Superzar Pro archive on March 14, 2026—documenting Israeli capture of U.S. institutions—now sits silent as Israel bombs Lebanon. The doctrine is "by deception thou shalt make war"; the execution is Israeli bombs; the enablers are a captured U.S. Congress. The evidence stands. The crimes continue.

The "Ally" Lie: How Congress Sells Out Americans to Serve Israel – Temperature Zero

---

1. Is Israel the "Best Friend" or "Ally" of the United States?

Claim	Fact	Reality
"Israel is our best friend in the Middle East."	The U.S. provides Israel over **$3.8 billion annually** in military aid, plus billions in emergency supplements (e.g., $22.76 billion since Oct 2023).	Israel is a **client state**, not a friend. It receives more U.S. foreign aid than any other nation, often without conditions.
"Israel shares our values."	Israel commits documented war crimes: Gaza genocide (50,000+ children killed), Minab school massacre (165+ children killed by U.S. Tomahawks), now scorched-earth campaign in Lebanon displacing 1.2 million.	The "shared values" narrative is propaganda. U.S. values are not consistent with ethnic cleansing and annexation.
"Israel is our ally."	An alliance implies mutual benefit. The U.S. receives nothing in return except military bases that serve Israeli strategic interests. U.S. troops are deployed to defend Israeli objectives, not American security.	The relationship is one-way extraction. U.S. taxpayers fund Israeli wars while American citizens lose their benefits.

Conclusion: "Ally" is a lie. It is a cover for a captured government that serves a foreign power at the expense of its own people.

2. What Congress Cut While Sending Billions to Israel

Program	What Congress Did	Impact	Source
SNAP (food stamps)	Expanded work requirements; restricted eligibility; extended 2018 Farm Bill restrictions through Sept 2026.	Families go hungry while Israel receives billions.	OBBBA; FY2026 continuing appropriations.

Program	What Congress Did	Impact	Source
Medicaid	Work requirements for adults 19-64; eligibility redeterminations every 6 months; banned payments for lawful immigrants.	Millions lose healthcare coverage.	OBBBA §§401-450.
Medicare	Maintained 2% BCA sequester; blocked Medicare Savings Programs improvements ($66 billion denial); terminated lawful immigrants' coverage; repealed nursing home staffing rule.	Seniors face higher costs, reduced access, unsafe nursing homes.	OBBBA; BCA 2011.
SSDI / SSI	Underfunded SSA administration; mandated elevated Continuing Disability Reviews (CDRs). Historical termination rates (10-20%) project hundreds of thousands to over a million disabled losing benefits.	Disabled Americans thrown off rolls; some die untreated.	H.R. 8666; SSA budget freezes.
Veterans Benefits	VA homecare reimbursement cut 20% effective Jan 1, 2026.	Veterans return from war to a system that cannot care for them.	VA budget; P.L. 119-75.

Contrast: The same Congress that cut these lifelines added **$4.1 trillion** to the debt with OBBBA, gave **80% of tax cuts to the top 20%**, and sent **billions to Israel**—including during the Gaza genocide and the Lebanon destruction.

3. What Congress Did Not Cut: Israel Aid

Aid Component	Amount	Timing	Congressional Action
Annual MOU (FMF + missile defense)	$3.8 billion/year	Ongoing	Appropriated without conditions.
Emergency supplements (Oct 2023 – 2026)	$22.76 billion total	Multiple packages, including after Oct 7, 2023, and after the Superzar Pro archive (Mar 14, 2026).	Passed with near-unanimous votes; zero hearings on conditions.
Iron Dome replenishment	$1 billion (H.R. 8771)	2026	Fast-tracked, no debate.

Result: Congress prioritizes foreign military funding over American lives.

---

4. The Lebanon Campaign – War Crimes Enabled by Congress

Israeli Action	U.S. Role	Congressional Response
Destruction of Litani River crossings, homes, and infrastructure.	Provides weapons, diplomatic cover, operational coordination with CENTCOM.	Zero hearings; no conditions on aid; continued funding.
Displacement of over 1.2 million Lebanese civilians.	Vetoes or abstains from UN resolutions condemning violations of Resolution 1701.	Silence.
Open discussion of annexing southern Lebanon up to the Litani River.	U.S. military aid enables expansion.	No member has called for aid suspension.

The pattern: Congress funds the weapons, shields Israel diplomatically, and ignores war crimes—all while cutting support for Americans.

---

5. The "Ally" Lie Exposed – Traitor Mouths

Element	Reality
Who benefits?	Israel receives billions; U.S. citizens lose SNAP, Medicaid, Medicare, veterans' benefits.
Who dies?	American troops die in wars started under Israeli pressure (Iran). Israeli bombs kill civilians in Gaza, Lebanon. U.S. veterans return to cut benefits.
Who pays?	U.S. taxpayers fund the $4.1 trillion OBBBA debt, the Israel aid, and the war costs, while their own safety net is gutted.
What do members say?	"Israel is our greatest ally." They say this while cutting food stamps for American children and sending bombs to Israel.

The "ally" narrative is a lie. It is a cover for a captured Congress that serves a foreign lobby at the expense of the American people. Members who repeat it are not misinformed; they are traitors to their oath.

---

6. The Social Service Cuts – What Returning Troops Will Find

Veterans' Reality	Congressional Action
VA homecare reimbursement cut 20% (Jan 1, 2026).	Congress voted for this while funding Israel's wars.

Veterans' Reality	Congressional Action
SNAP benefits reduced; families struggle.	Congress extended work requirements, cut eligibility.
Medicaid work requirements; millions lose coverage.	Congress imposed them.
Medicare Savings Program blocked ($66 billion denial).	Congress included this in OBBBA.
SSDI terminations: hundreds of thousands to over a million disabled projected to lose benefits.	Congress underfunded SSA, mandated elevated CDRs.

Troops who survive the illegal Iran war will return to a country that has cut the very programs designed to help them. Congress spent their sacrifice on foreign wars and foreign aid, not on their care.

The Golden Irrefutable

Congress claims Israel is America's "ally" and "best friend." The record shows the opposite: Israel receives billions in unconditional military aid while Congress cuts SNAP, Medicaid, Medicare, and veterans' benefits. Over 1.2 million Lebanese displaced; Gaza genocide continues; Iran war waged on false pretext—all funded by U.S. taxpayers. The same captured legislature (349 AIPAC-funded members) held zero hearings on the Lebanon destruction, zero hearings on the Bahrain false flag, zero hearings on the Iran war lies. It continues lateral fire attacks on executive officials while ignoring its own complicity. The "ally" narrative is a lie, repeated by traitor mouths who serve a foreign lobby. Troops will return to a country that gutted their healthcare, their food assistance, and their future—all while sending billions to Israel. The evidence stands. The betrayal is complete betrayal.
